PROFILE

I'm a Software Engineering and I have an extensive background based on programming, accounting and education.

As a Software Engineer, I have learned HTML5, CSS, JavaScript, Angular, React, Python, SQL, git, and several other technologies.

These technical skills, combined with my analytical mindset and attention to detail, provide a good perspective as I jump into this new professional chapter as a front-end or back-end engineer.

SUMMARY OF QUALIFICATIONS

- Python, C#, JavaScript, and TypeScript. Working experience developing REST APIs with Django and Web applications with HTML5, CSS, and Angular.
- Experience building SQL queries in Relational Databases such as Postgres and Oracle.
- Collaborate in software development with Git (GitHub, Bitbucket, Gitea, etc.).
- Agile Development.
- Degree in Computer Programming program.
- Bachelor's degree in accounting.
- Experienced in communication, teamwork, leadership, organization, analytical skills, and problem-solving skills.

WORK EXPERIENCE

IT Administrator and Software Developer

08/2024 – current

Kort Payments, Toronto, Ontario, Canada

- As an IT Administrator and Software Developer at Barnet - KORT Payments, I contribute to maintaining and optimizing the company's technological infrastructure. I assist in system administration and the development of custom solutions, using tools like Docker for environment virtualization and PostgreSQL for database management. My technical skills include SQL, HTML, CSS, React, Python, Django and Git.

My experience with frameworks such as Django and Bootstrap, along with the Nginx server, strengthens my ability to develop efficient and secure interfaces. Knowledge of Python and REST APIs supports system integration and process automation. I am always

looking to enhance my skills to optimize service performance and improve my web development experience.

Full Stack Developer

01/2024 – 08/2024

Time Energy, Campinas, São Paulo, Brazil (remote)
